

The Kupferle Foundry Company

# Water Quality Station

Manual Flushing (2" and 4")

Automatic Flushing

Continuous Flushing

Lockable Enclosure

Sampling Station

Still placing fire hydrants on your dead-ends? Introducing the new *Eclipse* #9900 Water Quality Station from The Kupferle Foundry Company! The *Eclipse* #9900 Water Quality Station can not only provide superior manual flushing, but can also be equipped to do much more! From automatic and continuous flushing to taking bacteriological samples, the *Eclipse* Water Quality Station is scalable and allows you to add the features you want when you need them—all this for less than the cost of a fire-hydrant!
